# EYFS Curriculum 24/25

## Overarching Principles

We believe strongly in the importance of putting children at the centre of our practice. The four **principles of effective practice**, outlined in the Statutory Framework for the early years foundation stage (2021) and presented in Birth to 5 Matters (2021), guides how we support children in their learning and development during the foundation stage at Jubilee LEAD Academy. We value each of these elements as essential components to effective teaching and learning

## Characteristics of effective learning

Our curriculum, teaching and provision is carefully designed to reflect the '**characteristics of effective learning**' (Birth to 5 matters, 2021), which are behaviours children use in order to learn (learning behaviours):

- **Playing and Exploring (engagement)**
  - finding out and exploring
  - playing with what they know
  - being willing to 'have a go'
- **Active Learning (motivation)**
  - being involved and concentrating
  - continuing to try
  - enjoying achieving what they set out to do
- **Creative and Critical Thinking (thinking)**
  - having their own ideas
  - making links
  - working with ideas

Our direct teaching and provision aims to stimulate curiosity and enthusiasm, thus making learning meaningful to the child. Our foundation stage puts play at the heart of this learning, as we appreciate the power of play across all areas of development. As children immerse themselves in what interests them, they find out about themselves, others, and the world around them.
