At Jubilee L.E.A.D. Academy we work closely with Nottingham City Safeguarding Children's partnership around a number of Safeguarding issues. Recently Nottingham City have developed a neglect toolkit which enables professionals and families to be able to identify areas of strengths within a family and also areas of concern to improve outcomes for the children and young people. Please see:

At Jubilee, We carefully select books which help develop pupils' understanding of safeguarding themes in a safe and age-appropriate way. Talking about characters in books is a great way for children to learn about how to stay safe. Here is a list of some of the books that we use in school that support children to better understand neglect
